

# Grafico Fabric System

## Set-up Instructions

1.

Screw the base plate pegs into place.

2.

Layout your frame poles and start matching the symbols on each pole which connect together to create the frame.

3.

Once the frame is assembled, place the frame onto the base plate pegs.

4.

Put on the cotton gloves provided (use at all times when handling the fabric panels).

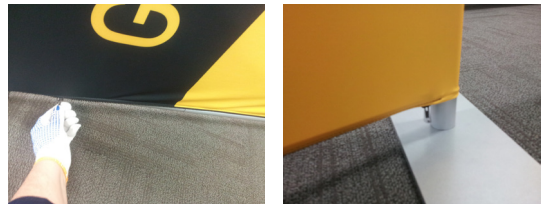

5.

Guide fabric panel onto frame starting from the top, then slide fabric down.

**Please note:** Please always ensure your fabric panels are placed on a clean surface and kept off the floor when assembling or dismantling your Grafico Fabric System.

6.

Once fabric is down the full length of the frame, attach the zip underneath the bottom frame bar and gently zip closed (once fully zipped, the bottom bar of the frame is hidden).

7.

Your display is now ready for your event.
